SAFETY OF WOMEN AND GIRLS IN PUBLIC SPACES

Expert team of the Institute of Architecture and Urban & Spatial Planning of Serbia (IAUS) was engaged in UN WOMEN Serbia project "Safety of Women and Girls in Public Spaces" in order to organize and conduct five specialized workshops. The aim of the project was to exchange experiences, disseminate results, improve the participation process and contacts with various stakeholders, implement new tools and improve methodological approaches in the urban planning process, regarding gender sensitive design and urban safety of females. The result of these educational and practical meetings with invited participants was final roadmap for amending and supplementing the legal framework.
