DETAIL REGULATION PLAN FOR THE BLOCK BETWEEN THE STREETS:
VOJVODE STEPE, OTOKARA KERSOVANIJA, BILECKE AND GENERALA RASICA, CM VOZDOVAC, BELGRADE

ПЛАН ДЕТАЉНЕ РЕГУЛАЦИЈЕ ТУРИСТИЧКОГ КОМПЛЕКСА „СРЕБРНАЦ“ НА КОПАОНИКУ DETAILED REGULATION PLAN FOR TURISTIC COMPLEX “SREBRNAC” ON KOPAONIK

Година усвајања: 2018.

Аутори: др Божидар Манић, д.и.а, др Ана Никовић, д.и.а. и др Тијана Црнчевић, д.и.п.а; остали чланови тима: Борјан Бранков, м.и.а, Катарина Мајхеншек, д.и.а.

Институција: Институт за архитектуру и урбанизам Србије

Простор Сребрнца припада делимично урбанизованој зони туристичког центра Копаоник, у којој је започет развој и изградња објеката смештаја, инфраструктуре и пратећих услуга, дефинисаној према просторном плану националног парка Копаоник. План детаљне регулације дефинише правила уређења и грађења и стварање услова за даљи развој, изградњу и инфраструктурно опремање туристичког комплекса „Сребрнац“ на Копаонику. Спровођењем овог плана очекује се да се омогући повећање вредности овог простора планирањем довршетка изградње туристичког комплекса у претежно природном планинском пределу и релативно концентрисана изградња на мањем, али погодном простору подручја. Поред тога, проширењем алпског скијалишта се омогућава повезивање са планираним секундарним центром Брзеће са Гоцманцима и повећање капацитета скијалишне понуде.

The Srebrnac area belongs to the partially urbanized zone of the Kopaonik tourist center, where the development and construction of accommodation facilities, infrastructure and related services, defined according to the spatial plan of national park Kopaonik, has begun. The plan defines the rules of regulation and construction, and also the creation of conditions for the further development, construction and infrastructural equipment of the tourist complex "Srebrnac" on Kopaonik. Plan, through its implementation, is expected to enable the increase of the value of this area by planning the completion of the construction of a tourist complex in a predominantly natural mountainous area, to achieve relatively concentrated construction in a smaller but convenient area, also by expanding the alpine ski resort to connect with the planned secondary center of Brzeće with the Gočmanci and increase the capacity of ski services.
